

VTT TYPE-EXAMINATION CERTIFICATE

No. VAL 442/1B2/03

| | |
|---|--|
| Component | Sound insulations: FOLIO-VANA, PU-VANA, EGGBOX-VANA, FR BONDED FOAM and PUR BONDED FOAM. Material thickness of the absorbents about 30 mm. |
| Manufacturer / Client and address | Oy Meluton Ab Arinatie 8 FIN-01510 VANTAA, FINLAND |
| Used rules | Recreational craft directive 94/25/EC, annex I, Essential requirements. RSG GUIDELINES Chapter 5 "Installation requirements" ISO 4589. There is no demand for a CE-mark of the absorbent products. |
| Identification information of the product | Identification information of the product is in the report RTE10645/98. |
| Research report no. | RTE10645/98 |
| Conclusions of the examination | The examined components oxygen index is at least 21. The sound insulations FOLIO-VANA, PU-VANA, EGGBOX-VANA, FR BONDED FOAM and PUR BONDED FOAM are coated with a non-fuel absorbent surface. These absorbents comply with the Essential requirements in the Directive 94/25/EC and RSG GUIDELINES Chapter 5 requirements. On account of this, the products can be used as absorbents in engine compartments inboard CE-marked boats. |
| Conditions of validity | The certificate is valid five (5) years from the signature date. The original certificate is written in Finnish. |
